Troubles of the firm were laid to the disappearance of George R. Christian, who entered its employ as a cierk twenty-six years ago, and was elevated to a partnership in 1919. Other partners said they had no knowledge of his whereabouts or the amount involved in the defalcation.

GERMANS FOR COOLADGE

"With the question of the integrity of the nation's institutions to the fore the large German vote of the State will support the President. Liquor and pro-Germanism might have enabled La Follette to make some kind of an appeal and some headway in 1912, but this is 1824—and these issues are dead.

"Another vital factor in our favor is the attitude of Missouri Democrats toward Charles W. Bryan. The name of Bryan is mentioned, they think of William Jennings Bryan. They know that Charles Bryan has a much better chance than John W. Davis and they know that this means William Jennings Bryan, who in 1912 in the Baltimore convention prevented Champ Clark from obtaining the nomination. Missouri Democrats have never forgiven or forgotten the incident and this year they are settling an old score and throwing a strong support to President Coolidge. This is only one of the reasons why Coolidge is obtaining thousands of Democratic converts.

REEED IS OPPOSED GERMANS FOR COOLIDGE

REED IS OPPOSED

"Senator Reed cannot expect to help the Democratic ticket to any appreciable extent—for the good reason that the Democracy of Missouri, including the State committee and the State committee to chan they have been in some time—in fact the tarmers of Missouri never suffered the depression to the extent that it was suffered in other parts of the country, largely due to diversified farming. Few of them will be moved by radical appeals to follow a political will-o'-thewisp this year."

Senator Spencer said that he was particularly pleased with the was the President feels about the conduct of the campaign, the national response to his candidacy and the widespread approval of the things he stands for in the administration of the nation's affairs and in the framework of government itself.

The Senator said that he assured the President he would carry the Missouri by a majority of at least 40,000. Referring to claims that the La Follette ticket would get a large share of the German vote in Missouri, Senator Spencer declared that this statement is without foundation for the reason that the Germans are among the strongest supporters of constitutionalism, against which a frontal attack is being made by the radicals.

"I know my own State pretty well," Senator Spencer said. "I carried it in 1910 by 129,000. In 1915, when there was ne Republican landslide, I carried it by \$5,000. The State is normally Republican and the only issue on which the Democratic have been able to carry it in recent years was the liquor question. It was this that enabled Senator Reed to Carry it.

and his California Orchestra Return to the Cocoanut Grove

Several months ago Abe Lyman and his Brunswick Recording Orchestra left the Southand for the Gay White Way. New York wanted him.

His engagements there were a tri-umph. New York's premier vaude-ville house, the Palace, acclaimed him. His summer engagement at the At-lantic City Ambassador thrilled even the most blase pleasure seekers of the eastern metropolis.

But all this couldn't keep him away from California. He comes back with the most popular exclusive dance or-

chestra Los Angeles has ever known, to play for you the outstanding synco-pated melodies of the day.

And, of course, he continues to make Brunswick Records exclusively.

Celebrate his return. Hear him play—better than ever before—at the Cocoanut Grove. Get one of his records free there the opening night. Then hear his others at your favorite Brunswick dealer's.

Note this selection to choose from. Your favorite is among them.

Fields who is a wonderful boxer, elected to do a lot of slugging but Joe got through his guard and landed a number of lefts and rights to the Jace. QUARTET OF ROOKIES MAKE PITTSBURG DANGEROUS TEAM

It is to be doubted if any rookie quartet as formidable as Cuyler, Kremer, Yde and Wright, the four Dreytuss secured for Pittsburg this year, ever broke into major company at the same time with the same club. And probably not for a decade have four such rookies entered the big league at the same time. But this bid for fame by these four players is predicted upon

this bid for fame by these four players is predicted upon only their first year. They have stood a season's test and their wonderful work has lifted Pittsburg to a pennant contender. But one year's grand work is not enough upon which to build a great or lasting baseball record.

Many young pitchers have hashed for a year and then been forgotten. Many young pitching for a season only to faiter in their second year, notable among recent examles is Genewich, the young Boston pitcher, and Traynor, last year's Pirate star at the bat. Traynor is coming back, however.

Mother Bush at about the same time, if not the same poar.

Oh, yes, and there was the Oriole quartet, than whom none sang a greater barbershop chord in baseball—Jennings, McGraw, Robinson and Keeler. These lads came to the major circuit within a year or two of one another.

The Phillies had a famous four, Delehanty, Lajole, Flick and Donahue, the latter a wonder pitcher of his day. Were they rookies of the same year?

And Boston had a pennant-winning four in Ruth, Scott, Duffy Lewis and Mays, back about 1914. They came in close together if not at the same time.

While the Pittaburg four, Kremer, Yde, Cayler and Wright, have their fame yet to carve on the baseball granite that crumbles not away, yet you have to give it to themotom of the great quartets named above did better than these latter-day four their first big-league season. George Blake was there with a group of his boys from the Los Angeles Athletic Club. Joe Toplitsky, the capitalist, was pointed out among the mourners, and Dan Van Blunt, the St. Paul millionaire, was present.

John Heydler, president of the National League, was absent, but he sent a beautiful broken wheel in flowers. The sixteen majorleague baseball teams sent floral tributes. The White Sox, the last team which Chance managed, sent one of the most beautiful ones.

It was not a pretentious service. Scarcely any but the fifty or more sorrowing baseball fans that lingered outside the chapel knew that it was the funeral of the Peerless Leader of baseball. "Whose is it?" questioned a passer-by in laboring garb and a dinner pail. He was about to board a street car.

"Frank Chance," he was told. And he let the car go by as he took off his hat, bowed his head and joined the other fans on the curb.

"He will be remembered in the home." Dr. Brougher was saying. "He will be remembered by his business advocates. He will be remembered to the baseball-world. He is one who achieved success in the national sport—the cleanest sport in the world."

The service was brief, lacking eulogies. The eulogies were in the memories of those who gathered around his casket, in the memories of those who packed the bleachers in every baseball field throughout the country and of every player who stood with bared head upon the diamonds for a period of five minutes while the gray casket was being lowered in the open rrave.

The eulogies were in the memories of the umpires who, as the first clod of sarth fell upon the casket, called out—"Play ball!"

A Million Dollars Spent on **4 Moving Parts**

HE Balboa motor is a conventional eight-cylinder engine except for the four moving parts which constitute the Balboa supercharger. Ten years time and a million dollars were spent to bring this supercharger to its present simplicity and effectiveness.

The result, in daring performance, is a new sensation. Balboa's 100 horsepower engine provides an alertness and speed far beyond any reasonable need. The supercharge principle makes possible an advance in engineering that lengthens the life of the car very materially. [The first Balboa ever built ran over 100,000 miles without overhauling).

And Balboa carries a guarantee of 25 miles to the gallon of gasoline—easily twice the fuel mileage of any other eight-cylinder car in Balboa's class.

Hundreds of people come every day from all parts of the city to see the Balboa at our

HART SCHAFFNER & MARX SEE THE FALL STYLES THE WAY YOUNG MEN SEE THEM

> TOU don't have to tell young men what they want I to wear; they know; just the right hang to the coat; the proper width of trousers; the correct swing to the cuffs; the button spacing. You'll find every detail as you want it here at this store in Hart Schaffner & Marx new fall styles. You'll find new colors, toolava gray, parrot blue, London lavenders and many others. You'll find some exceptionally good values, too,

How your coat should look

TT will have athletic looking shoulders. It will hang with plenty of freedom and will be a trifle snugger below the hips. The button spacing will be wide. Some of the coats will have a slight suppression at the waist line. Either two or three button coats are good.

How your vest should look

THERE can be a great deal of style in a vest. There ought to be. We show it. Plenty of freedom through the chest with a flat narrow effect at the waist line; points rather short and blunt. You can throw back your coat with the knowledge your vest is right.

How the trousers should look

HOW the trousers fit is one of the most important items in a suit to any young man. They should fit snug at the waist with plenty of width through the legs and at the cuff. Ours are just right. Hart Schaffner & Marx made them.

Armstrong's Linoleum for Every Floor in the House

For the Sun Porch nermanent floor of Armstrong's Inset Marble Tile

Inlaid Linoleum.

A Sun Porch Needs a Gay, Bright Floor

THE sun porch shown in the picture was never quite successful before its present linoleum floor was laid. Its smart furniture, its effective cretonnes and hangings, were never at home with the old board floor. The paint on the floor was faded and worn; the surface was scarred; there were wide cracks. The wood floor marred the whole effect.

Then the floor you see was put down. It is Armstrong's Lino-leum in a marble tile inlaid. See how smooth and unbroken its surface is, how colorful and attractive its design. A modern, handsome floor!

One of many new designs

This linoleum floor is only one of many beautiful patterns in the new linoleum. Armstrong's Linoleum may be had in inset tile inlaids, marble inlaids, carpet inlaids. The new Jaspes—which are two-tone, rippling effects in blue, gray, green, and brown—are decidedly in vogue now for rooms where small or large fabric rugs are to be used.

Never before has there been so great and rich a variety of charming colorings and designs from which to choose pretty floors.

Besides being prettyeasy to clean, and perman

A floor of fine linoleum is wonderfully easy to care for. As soon as it is laid, it needs washing and a thor-ough waxing. After that simply brush up the surface dust each day with a dry mop. Once a week go over the floor with a cloth moistened in liquid floor wax. About twice a year give it a complete waxing and polishing. That is all the care your linoleum floor ordinarily will need. It will actually mellow, and improve in appearance as the years

When Armstrong's Linoleum is laid in the modern way, it is a per-manent floor. Linoleum should be cemented down over a lining of builders' deadening felt which has been pasted to the wooden underflooring. Then there are no tacks, no noticeable seams, no buckling, no stretching. Your floor is snug

How to get linoleum floors

Good department and furniture stores carry Armstrong's Linoleum in designs suitable for any floor in the house. The modern patterns and colors insure your finding something to go with any decorative scheme you have in mind. You'd be able to arrange for the proper laying of your linoleum while you are buying it, for good stores to ploy experienced linoleum layers do this work.

Let our Bureau of Interior Decoration help yes

If you wish help in planning the de-orations of any room, our Buren of Interior Decoration, in chan-of Mrs. Hazel Dell Brown, will and you complete suggestions for color schemes for floor, wall covering and draperies for any room or room you describe. No charge is man-for this service.

SAN DIEGO; Sept. 18.—Prospect of returning Earl Tingley and Mrs. C. A. Phillips, the San Diego couple arrested in New York State at the beheet of the Sheriff's office here, to San Diego for trial on charges of larceny and forgery, is made remote by the refusal of Gov. Richardson to grant extradition papers, according to Deputy Sheriff. William Buck, who returned today from Sacramento.

Buck said the Governor had found errors in the preparation of the papers and also doubted the probability of securing a conviction. In addition, the State executive requested C. A. Phillips, husband of the woman, to post a surety bond to cover the expenses of bringing the elopors back for trial. Buck and his wife went to Sacramento to secure the necessary papers, in preparation for the trip to New York State to get the prisoners.

MARKET AVERAGES

NEW YORK, Sept. 18.—Abundance of time funds, offered as low as 2% per cent for ninety days maturity, gave a strong underlying tone to today's bond market, resulting in a quiet and orderly advance in prices. Broader inquiry for high-grade corporation issues developed with a lapse of interest in Liberty Bonds.

Buying of railroad liens predominated in stock exchange trading. Among individual features, the most conspicuous movement was a rise of 1 point in International Great Northern adjustment 6s to a new 1934 top price.

Other issues which participated in the advance included Southern Fucific collateral 4s. Chesapack and Ohio general 4½s and New Haven, Western Maryland, Rock Island, Central Pacific and Seaboard obligations.

Heavy oversubscription of the Canadian government's 390,000,000, one year, 4 per cent note issue, offered today, was reported by the underwriting syndicate, headed by the Canadian government's 390,000,000. Industrial issues were moderately active with a good demand for copper, sugar and rubber bonds. Sinclair Consolidated Oil if en a moved counter to the general trend. Foreign and United States government bonds were firm.

Drilling Ahead
The Associated Oil Company has resumed drilling ahead in its DeFrancis No.-1-A in the southeast part of the Dominguez field. Progress was interupted for some time because of the discovery of a cavity, when the drill had penetrated only a few hundred feet. About two weeks were spent in pouring mud and straw into the well to fill up the cavity so the drill could go ahead.

The Shell Company is making a test in two wells in the Dominguez field.

Reyes No. 10 flowed 335 barrels in a twenty-four-hour test, showing a cut of 12 per cent; and grayity of 28 degrees. This well is an offset of the Superior Oil Company's Carpenter No. 1, which was abandoned at \$400 feet. Many operators regard the well as hopelessly in the edge of the sand, but the Shell is presevering with the project, expecting to recover at least part of the cost of the well. It was on production for a short time, but water broke in, and the well was plugged back. At present there are about seventy-five feet of hole below the shoe, which sets a limit on plugging operations.

The Shell's Reyes No. 11 made three small flows during the water tests, cutting 1 per cent emulsion. It will be drilled further into the sand, before it is finally completed.

sand, before it is finally completed.

Spud Second Well

The Bransdall Oll Company yesterday spudded in its Rosecrans No. 2 well in the southeast part of the Rosecrans fold. No. 2 is one location west of Rosecrans No. 1, on the south line of the lease, off-setting the Maxwell lease. No. 3 is located in the northwest corner of the lease, and No. 4 is one location west of Nr. 2. Rigs for No. 3 and No. 4 have not yet been built.

Cement Again

The Standard Oil Company failed to shut off the water in its first test of the Los Angeles Investment Company No. 1 well, on the original Los Angeles Investment lease in the Baldwin Hills. Pipe was set and cemented at 2107 feet, bottom being 2108 feet, but the well showed water on the shutoff test. It was cemented again at the same place, and is now standing cemented. Nothing showed exceptwater during the test, according to drillers.

The Shell Company's two wells in this 'area are generally reported to have found good oil sands, although efficials of the Shell assert that the indications have been nothing to get excited about. It is admitted that some oil sand has been found, but because of water trouble a successful test have never been made. Shell officials assert that neither the Bryant nor the Bixby well has found anything yet which will produce more than a barrel or two a day, Geologists in general look upon

Bring Back the Original Color With This Clean, Colorless Liquid

There is no longer any need for paople to let gray hair remain to make them look old. The discovery of the remarkable clean, colorless liquid known as Kolor-Bak has made grayness a thing of the past for people everywhere.

It seems almost unbelievable, but it has been proved over and over again that no matter what the former color of the hair was, Kolor-Bak will restore it. It also gives the hair a beautiful, natural gloss, renewed "life" and lustre, and makes it soft, beautiful, "young" again. The restored color is uniform—not atreaked or faded looking—and is the true original shade.

Kolor-Bak is just a clean, colorless liquid which is a proved substitute for the natural pigmentation of the hair—as easy to use as water. Results often appear in a week.

Kolor-Bak is also a scalp and hair tonic because of its cleansing, atimulating qualities which aid

Mausoleum Interment Provides En-during Protection of the Dead Against the Elements

How many of us have stood at the open grave of a departed loved one in a beating rain, to see that dear form lowered into the fast-filling excavation. It is a harrowing experience, and the memory will not fade. Such conditions are impossible under the Mausoleum method of sepulture, where bodies are laid reverently away in individual crypts in a beautiful building—beyond, the elements—to come to their inevitable dissolution gradually and naturally, amid surroundings of such peace and quiet dignity that one feels it fitting to leave them in this "Chaste Temple."

duter dignity that one feels it fitting to leave them in this "Chaste Tample."

How many of us have desired again and again to visit the grave of one who was once near and dear to us but has been prevented by a storm-finally to go, and the elements and get things into deemy and order again. This can never happen to those whose departed are entombed in granite, marble and reinforced concrete Mausoleums, where the sweet, fresh air is undisturbed by storm, where perpetual care provides and maintains exquisite order and dignified peace, where every provision is made for these who would lay away, or visit, their dead in quiet serenity and comfort.

Something to think about, against the common lot which the future holds. It is common now for thought-ful people to provide beforehand for the proper disposition of the body after death as it is to make a will. Helpful information, by word and illustration, will be found in the booklets of the California Mausoleum Co. Telephone for one. Main 1524, or visit the Offices, 208 Harris Bldg., 116 West 11th St., where arrangements may be made to visit the two beautiful Mausoleums they have erected.—[Advertisement.

The Council chamber was frowded yesterday afternoon with supporters of both sides of the controversy, and Attorney Herbert Goudge, representing the Municipal League opposing trademarked paving was applauded during his argument, as was also A. J. Hill, representing the National Patented Paving Company, which seeks admission to Los Angeles. Ten Per Cent Cut

Recent accidents to the Souther California Edison Company's steam generating plants at Long Beach, Redondo and Visalia, which have reduced the daily output of steam-generated electricity by about \$50,000 kilowatt hours, resulted yesterday in an order being issued by Power Supervisor Butler calling for a 10 per cent cut in power to all large consumers.

Mr. Butler said the loss in steam-generated electricity necessitated taking heavy drafts of water from Huntington Lake during the last week.

Arrangements have been made with J. J. Deuel, manager of the Farm Bureau Federation, to put the curtailment in operation.

Those believed to be in favor of retaining the trade-mark names in the specifications were Councilmen Baker. Cristell, Mushet, Sanborn and Wheeler (5) and those opposed were President Workman, and Councilmen Allan, Gregory and Mallard (4.) In setting forth his position on the controversy, Councilman Mushet yesterday issued the following statement:

The announcement of the marriage of Mrs. Earlda Baker Wallace, daughter of Fred L. Baker of the Baker Iron Works, and siter of Lawrence Baker and Mrs. Guy Boynton, to Fulton Layne of Long Beach Wednesday will be a surprise to the many friends of the Baker family in this city.

Mrs. Wallace and Mr. Layne were married at the summer place of the bridegroom at Alameda Scrings, and after a brief honeymoon will make their home in Long Beach, where Mr. Layne is engaged in business.

that time Prager was in the best of health and enjoying a flourishing business.

Yesterday a vastly different Prager took the witness stand in Justice Forbes's court and haltingly in a weak, scarcely audible voice, identified Eddie Middleton as the attempted robber.

Pale and haggard from loss of sleep over a deep-seated worry that one of the shots he had fired at the robber had struck and possibly seriously wounded or killed some one. Prager is but a shell of his former self. His eyes are bloodshot, his manner listless and he has shut up his shop and closed his business because of the affair.

Following the shooting police searched for builet holes in the store, but fourn none. Prager recalled the two customers who were in the store and the idea that he had shot one or both of them was born. Police scouled the thought, but Prager worried. Physicians were unable to sid him and Prager, a victim of reproaches day and night, cannot rest.

The real business of the convention will set under way tomorrow morning at the Strand Theater and will be called to order by Dr. Howard B. John Bertrum Clarke, love seer and pastor of the Church of Cosmic Truth, was declared finance by the Lunacy Commission yesterday and ordered by Superior Judge Guerin to be committed to the asylum at Patton.

Clarke, an inmate of the County Psychopathic Hospital since his arrest upon startling information obtained by police and investigators of the District Attorney's office, was brought before the Lunacy Commission on a complaint signed by Clara Tautrim, a 15-year-old girl who is said to have been enmeshed in the bizarre activities of the self-styled "master of women."

with more than one-half mile of bleachers and box seats now under construction. Fifteen thousand persons can be accommodated. It is predicted that a crowd of more than 100,000 will see the fiyers return to the field whence they hopped off on their history-making journey.

According to present plans and with favorable winds the aviators will enter the field from the east through a space provided between the tall trees bordering the landing spot. This will land the machines within fifteen feet of the spot where the flight began.

It is planned to have the planes taxled between banks of flowers which will be placed on either side of the runway. Every person attending is requested to bring a small American flag. As the aviators land thousands of volces will greet them with "Home. Sweet Home" and "America." The songs will be under the direction of Hugo Kirchhofer.

The entertainment program will be started at 9 o'clock in the morning and will include stunt flying, band concerts, community singing and address of welcome by Gov. Richardson. Many additional features which are being planned are to be announced later in the week.

"The new paving specifications allow four kinds of patent, black material, to compete, viz: Warrente, Willite, Campbellite, and National. It is hoped and expected that the new specifications will, measurably, alleviate the grinding burden on the property owner until the Supreme Court decides upon the constitutionality of the procedure ordinance. "I may be mistaken, but it seems to me that with all competition removed, the cement trust would have an absolute monopoly, and that it is the part of wisdom to increase and not decrease competition. I don't blame the cement people for wishing to reduce competition, but I am afraid it is a selfish desire and not for the benefit of the property owner.

"The people are told that grading costs 114 per cent more when Warrenite is used. If this is true—which it is not, whose fault is it that such a grading contract is awarded. The city has the right to reject any and all bids.

"As a member of the Council I have sworn to protect the interests of the people, and in this paving controversy, as in the attemptical secret sale of the \$13,000,000 power bonds, and in all matters affecting the welfare of the taxpayer and the community at large, I shall vote as my conscience and honest convictions dictate."

Armed Force of Sherif's Deputies Rush to Answer Frantic Feminine Calls of "Murder," "Police," But Find Hair-Pulling Contest Called a Draw

The telephone rang in the Sheriff's office shortly after 2 p.m. yesterday. Qeputy Sheriff Dunn answered. Over the wire came feminine screams that seemed like
"murder." "police." Then the voice
calmed a bit and mentioned 4714%
Brooklyn avenue.

Seven deputies, armed and ready
for any emergency, piled into the
fastest motor car of the department and rushed through the
streets. They arrived at the number prepared to battle to the death.
Instead they found Deputy Constable Bartolo of Belvedere at the
scene, which was one of quiet and
apparent peacefulness. Bartolo
explained:

"Aw, a coupla Mexican girls here
traded dresses." he said, "and afttraded dresses." he said, "and aftsee the trade one of them thought
she had been worsted so she raised
a rumpus. They staged a hairpuilling contest interpersed with
shrieks and blows. Both got to the
telephone-and called your office and
mine. I got here, made 'em trade
the dresses back and it's all over
now."

Backward over the streeth they
had so recently traveled at a high
rate of speed rolled the Sheriff's
car at a moderate pace. Seven deputy sheriffs sat in stony silence,
their formidable guns but a grim
reminder of their mad dash to
reach the scene of the quarrel.

Take, for example, his Lafayette Day address at Baltimore, in which he said, "We want Europe to compose its difficulties and to liquidate its hatreds. Would it not be

well if we set the example and liquidate some of our own? The war is over." What did Macaulay or Carlyle or any other original conjurer of English ever evolve and enunciate that was a bette idea, clothed in more striking language, than this of "liquidating hatreds"? In the sense in which Coolidge uses the term, to liquidate is to adjust or to settle, as it is employed and then he goes on to point out that one way to begin to do this is for our people to bestow upon each group of their countrymen that confidence and fellowship which are due to all Americans.

This peaceful era can be reached, as Coolidge points out, by our "assisting in the restoration of the German people, now shorn of militarism, to their full place in the family of peaceful mankind." But, while this ethical sentiment is not a bitter pill for tolerant Americans to swallow, those who like to keep alive racial animostities and refuse to "liquidate hatred" may find it so. However, they will swallow it in time; and Coolidge provides the sugar coating by holding all such unforgiving spirits to the remembrance that "we long ago ceased to Possibly it is impolite for the American players to defeat the British chamber in the presence of the Prince of in the presence of the Prince of the si, but they have been doing it right reason of two wars that were fought out and never know when to quit.

Straightline Coats with long revers and devoid of fastenings are singularly becoming to young girls who will draw them non-chalant about them. Straightline Coats merrily plaided suggest outdoor playtimes and slim Coats in warm shades are often made more entrancing with trimmings of spotted fur. Very unusual values.

Visitor Says Everybody Rides in East Africa State

Natives Declared Wild About Our Cowboy Films

Wide Range of Products Are Grown in Region

California may rank first in the world in the number of automo-

world in the number of automobiles per capita but the Kenya protectorate, British East Africa, holds second place, declares J. Christie, attorney of Mombasa, the principal seaport of Kenya.

Christie, who is touring the world, arrived in Los Angeles yesterday and is at the Biltmore. He says there are cars enough in Kenya for all its 10,000 white people to ride, with plenty of room left over for several thousand of the dusky brethren who constitute the major portion of the population.

"But petrol, gasoline as you call it, is frightfully high, running nearly \$1.50 a gailon, and it keeps a lot of our people broke, as you say, to operate their machines," he commented. "And our roads are not so good. But the Kenyans are certainly motor-mad."

BLACKS FILM FANS

BLACKS FILM FANS
Another American fad that has taken firm hold in East Africa is the motino picture.
"The blacks most of whom are still in a state of semisavagery, are wild over your western cowboy films and they also love the comics," said Mr. Christie. "Charlie Chaplin is their particular idol among the stars. He always packs the house with natives whose bearty negro chuckles furnish sufficient evidence as to their delight in the comedian's antics."

The Briton has lived at Mombasa for four years and thinks it's the greatest place on earth. He referred again and again to the beauty of the city and also that of Zangibar, which is in another province.

Some persons think time hange beavy on our hands away off on the other side of the earth and isolated from everything reminiscent of civilization." said Mr. Christic. But not so. We have at our disposal practically every means found mywhere else in the world to make its pleasant, except, perhaps, newspapers and theatrical productions. "Our principal form of recreation is big game huntins. While one now has to go farther afield han formerly to find wild animals, hey still abound in bewildering fariety. A short time ago when I raveled over the railroad from dombasa to Nairobi, the capital of Kenya. I observed, among other inimals, a lioness with cube prowling about not far from the right of test.

INIVERSAL GETS ALMA RUBENS FOR FEATURE

SIGN NEW STAR

By Grace Kingsley ting his eyes about for as ny good stars as he can possibly that he was going to keep up his good reputation by making a series of excellent pictures, let the chips, poker and otherwise, fall where they might. Edward Laemmis comes forth with the statement that Alma Rubens has been selected as one of the leading players for Universal's program of feature pictures to be made for release the coming year and to be known as the "Perfect 38"—referring to the number of features for the year.

Edward Laemmie himself will direct the first of the series in which Miss Rubens will go under the Universal banner. It will be called "The Stairway of Hope," and is an adsptation of the story, "Miracle," by Clarence Buddington Kelland, now current in a leading monthly publication. Production starts next week.

week.

Miss Rubens came to the Coast to star in one Fox production and intended to return at once to New York. Two succeeding engagements followed and now she has taken a Hollywood hillside home and plans to remain indefinitely. Following this lead under young Ladmmle's direction she will play in the first Imperial feature with James Kirkwood.

Percy Marmont will be co-featured with Miss Rubens in "The Stairway of Hope."

Napoleon will be played by EGAN COMEDY ENTERS

Napoleon will be played by Emile Drain of the Comedie Francaise, one of the greatest of the French actors. The role of Fouche has been entrusted to M. Faviers, who has been for several seasons one of the leading artists of the Sara Bernhardt Theater. Arlette Marchal, one of the noted French motion-picture stars, who has attained a large measure of success in recent European pictures, will play the Queen of Naples.

For the role of Niepperg, an Englishman has been selected—Warrick Ward. Roustan, Napoleon's Mameluke will be played by Roaul Paoli, who was among the most prominent members of the French team at the recent Olympic games, and has also done exceptionally good work in pictures abroad. Susanne Bianchetti deserts a highly successful stage career in Paris temporarily to play the Empress Marle Louise. The dauntless Marshal Ney will be in the hands of Louis Vonelly, who is regarded as one of the leading lights of the Paris stage. Raoul Villiers will play Bernadotte.

For the character of Robespierre Paramount has obtained the services of Jose Roland, who several times has won success in the same character on the stage.

The French press is keenly interested in everything pertaining to this production. There has not been one unfavorable comment regarding the choice of the players, who portray the different roles.

CAFE REVUE PEPPY

Pretty girls, tuneful numbers and a zip that lifts it out of the and a zip that lifts it out of the ordinary rut are the features which characterize Fanchon's "Frivolities," the new revue which has just been presented by Dave Wolf at the Plantation.

Honors are evenly divided between Peggy Chamberlin and Carlos and Jinnette, aided and abetted by Chris Mann's orchestra. Peggy is a girl who can sing, dance, clown and turn hand-springs, which qualifies her as an all-around entertainer. Carlos and Jinnette are a pair of very clever young steppers, and their Apache number has several thrills in it. Starr Russell, with Jeanne Beatty at the piano, pleased with "Birmingham Papa" and "I Gotta New Kind of Man." The beauty chorus lived up to its name in every

New Kind of Man." The beauty chorus lived up to its name in every respect, and led by the pepful Jeanne Gore put into each number a zest that drew enthusiastic response from the 300 or more persons who were on hand to see the revue get off to a flying start.

FLAPPER JUSTIFIED.

That much maligned, much loved, much discussed and much envied product of the present era, the flapper, finds herself Justified for once in the photoplay which is to have its western premiere tomorrow at the California Theater. The picture is "Another Scandal," written by Cosmo Hamilton, and its star is beautiful Lois Wilson who is aided and abetted by Holmes Herbert, Flora LaBreton, Hedda Hopper and other favorites. Hamilton's story which has been faithfully reproduced in celluloid primarily deals with the fact that love, romance, loyalty and humor are absolutely essential to insure the enjoyment of married life to its fullest extent.

"Another Scandal" shows the flapper after she has quit flapping, for flapperism puts the girl through the furnace and she either comes out the highest type of a woman or the other. And into this story on the screen is revealed Hamilton's supreme belief in woman, his belief that by far the large majority of them withstand the test.
